Gregg Scott Luce,
Principal.
Executive Management Engagement Group

Re: Business Relationships

Dear Gregg,

It has been my pleasure working with you and Millennium III Corporation to date. I have found our collaboration and cooperation in pursuing strategic business-to-business potentials worthwhile. My intention is to continue with you in examine exciting business opportunities.

Right now, my prime interest is your "humans into space" endeavor, a strategic alliance bringing Aerospace interests, Space-Tourism advocates, Starport mega-resort proponents, one international airline and a Space-Cruiser developer together.

For this effort I would like to offer you my insider aerospace industry knowledge. Together, with your twenty plus years as an executive using unique destination forums and your work with accredited resources, let's get "humans into space"

Sincerely and in the spirit of achievement!
